RSM US LLP

#### **Independent Auditor's Report**

Board of Directors Navy SEAL Foundation, Inc.

#### **Report on the Financial Statements**

We have audited the accompanying consolidated financial statements of Navy SEAL Foundation, Inc. and its subsidiary, which comprise the consolidated statements of financial position as of December 31, 2020 and 2019, the related consolidated statements of activities, functional expenses and cash flows for the years then ended, and the related notes to the consolidated financial statements (collectively, the financial statements).

#### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

#### **Auditor's Responsibility**

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

#### **Opinion**

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Navy SEAL Foundation, Inc. and its subsidiary as of December 31, 2020 and 2019, and the changes in their net assets and their cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Ending	\$ 16,518,020	\$ 9,673,055

#### Note 1. Nature of Organization and Summary of Significant Accounting Policies

**Nature of organization:** The Navy SEAL Foundation, Inc. (the Foundation) is a nonprofit organization established to provide support to all U.S. Navy SEALs, Special Warfare Combatant-Craft Crewman, Naval Special Warfare (NSW) support personnel and their spouses and children. The Foundation coordinates closely with NSW commands to support critical needs of active duty operators while also providing resources for NSW Veterans. The Foundation is focused on five key areas: educational opportunities, tragedy assistance and survivor support, warrior and family services, transition assistance and veteran support, and legacy preservation.

The Foundation is the sole member of SEAL Heritage Center, LLC (SHC), which was formed on June 3, 2011. The SHC's main function is to provide a facility dedicated to the Foundation's five key areas of focus.

**Principles of consolidation:** The consolidated financial statements include the accounts of the Foundation and its consolidated subsidiary, SHC. All significant intercompany accounts and transactions have been eliminated.

The significant accounting policies followed by the Foundation are described below:

**Basis of accounting:** The accompanying consolidated financial statements are presented in accordance with the accrual basis of accounting, whereby revenue is recognized when earned and unconditional support is recognized when received and expenses are recognized when incurred.

**Financial statement presentation:** The consolidated financial statement presentation follows the requirements of Accounting Standards Codification (ASC) 958. Under ASC 958, the Foundation is required to report information regarding its financial position and activities according net assets without donor restrictions and those net assets with donor restrictions.

**Net assets without donor restrictions:** Net assets available for use in general operations and not subject to donor restrictions.

**Net assets with donor restrictions:** Net assets with temporary donor-imposed restrictions result from contributions whose use is limited by donor-imposed stipulations that either expire by the passage of time or can be fulfilled and removed by actions of the Foundation pursuant to those stipulations. Other donor-imposed restrictions are perpetual in nature, where the donor stipulates that resources be maintained in perpetuity.

**Use of estimates:** The preparation of consolidated financial statements in conformity with generally accepted accounting principles (GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of public support and revenue, and expenses during the reporting period. Actual results could differ from those estimates.

**Cash and cash equivalents:** The Foundation considers all highly liquid instruments purchased with an original maturity of three months or less to be cash equivalents. The Foundation maintains its cash in bank deposit accounts which, at times, may exceed federally insured limits. The Foundation has not experienced any losses in such accounts and believes it is not exposed to any significant credit risk on cash and cash equivalents.

#### Note 1. Nature of Organization and Summary of Significant Accounting Policies (Continued)

Contributions receivable: Unconditional contributions that are expected to be collected within one year are recorded at their net realizable value. Unconditional contributions that are expected to be collected in future years are recorded at the present value of estimated future cash flows after an allowance for estimated uncollectible contributions is provided. The discounts on those amounts are computed using a risk-free interest rate applicable to the year in which the promise is received. Amortization of the discount is included in contribution revenue. Management determines the allowance for doubtful collections by regularly evaluating individual donor receivables and considering a donor's payment history and current economic conditions. Contributions receivable are written off when deemed uncollectible.

**Contributions:** Unconditional contributions are reported net of fees related to online donations. Fees typically relate from banking or credit card service charges in relation to using a credit card to donate via the Foundation's website. Contributions of assets, other than cash, are recorded at their estimated fair value. The Foundation reports gifts of cash, stock, or other assets as revenues with donor restrictions if they are received with donor stipulations that limit the use or timing of the donated assets. When a donor restriction expires, that is, when a stipulated time restriction ends or purpose restriction is accomplished, donor restricted net assets are reclassified to net assets without donor restriction in the consolidated statements of activities. Conditional contributions are not included as revenue until such time as the conditions are substantially met.

**Special event revenue:** Special event revenue is recognized either when the event is held or when the underlying contribution becomes unconditional. Revenue collected in advance of the event that is conditioned on the event occurring is recognized as refundable advances in the accompanying consolidated statements of financial position.

Investments, at fair value: Security transactions are recorded on a trade-date basis and are carried at fair value. Investments received by gift are recorded at the fair value on the date received. The net realized and unrealized gains and losses are reflected in the accompanying consolidated statements of activities. In calculating realized gains and losses, the cost of securities sold is determined by the specific-identification method. Interest income is recognized under the accrual basis. The unrealized gain or loss is calculated as the difference between the cost basis of the investment and the fair value of the investment at the measurement date. Dividend income is recognized on the ex-dividend date. The Foundation invests in a professionally managed portfolio that consists of an alternative investment. The alternative investment is a limited partnership, which invests in exchange traded funds, hedge funds and private equity funds. The alternative investment is measured using the net asset value (NAV) as a practical expedient in accordance with ASC 820, Fair Value Measurements.

**Market risk:** Market risk primarily arises from changes in the market value of financial instruments. Theoretically, the Foundation's exposure is equal to the value of investments purchased. Exposure to market risk is influenced by a number of factors, including the relationships between financial instruments, and the volatility and liquidity in the markets in which the financial instruments are traded. Management of the Foundation seeks investment opportunities that maximize risk adjusted returns over the long-term horizon. As such, the Foundation may invest in a wide array or investments and strategies.

**Other investments, at cost:** In 2012, the Foundation received 3,300 shares of common stock in a private corporation with holding restrictions. Other investments are stated at historical cost based on the fair value at the date of the donation. Periodic evaluations are made by management, as deemed necessary based upon an event or change in circumstances that has occurred during the period, to determine whether the investment has been impaired. Management has determined that there is no impairment of other investments as of December 31, 2020 and 2019.

#### Note 1. Nature of Organization and Summary of Significant Accounting Policies (Continued)

**Property and equipment, net:** Property and equipment is stated at cost at the date of acquisition, less accumulated depreciation. The Foundation capitalizes expenditures for property and equipment over \$5,000 and with a useful life in excess of one year. Depreciation is computed by the straight-line method over the following estimated useful lives:

	<u> Years</u>
Buildings and improvements	27–40
Furniture and equipment	7
Vehicles	7

Valuation of long-lived assets: Long-lived assets are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. Recoverability of assets to be held and used is measured by a comparison of the carrying amount of an asset to future net cash flows expected to be generated by the asset. If the carrying amount of an asset exceeds its estimated future cash flows, an impairment charge is recognized by the amount in which the carrying amount of the asset exceeds the fair value of the asset. Assets to be disposed of would be separately presented in the accompanying consolidated statements of financial position and reported at the lower of the carrying amount or fair value less costs to sell.

**Functional expenses:** Functional expenses are determined through allocating total expenses incurred to the programs and supporting services benefited. Direct costs are classified to the functional expense category benefited. Allocation metrics include percent of direct costs, square footage, and time studies for staff utilization.

**Income taxes:** The Foundation has a tax determination letter from the Internal Revenue Service that states it qualifies under Section 501(c)(3) of the Internal Revenue Code and is exempt from federal income taxes. Accordingly, no provision for income taxes has been made in the accompanying consolidated financial statements.

Management evaluated the Foundation's tax positions and has concluded that the Foundation has taken no uncertain tax positions that require adjustment to the consolidated financial statements. The Foundation files a Form 990 in the U.S. federal jurisdiction.

**Advertising:** Advertising costs are expensed as incurred and totaled \$520,110 and \$414,031 for the years ended December 31, 2020 and 2019, respectively.

**Reclassification:** Certain reclassifications have been made to the prior years' consolidated financial statements to conform to the current year presentation. These reclassifications had no effect on previously reported changes in net assets or net assets.

#### Note 1. Nature of Organization and Summary of Significant Accounting Policies (Continued)

Recently issued accounting pronouncements: In February 2016, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2016-02, Leases (Topic 842), which sets out the principles for the recognition, measurement, presentation and disclosure of leases for both parties to a contract (i.e. lessees and lessors). The new standard requires lessees to apply a dual approach, classifying leases as either finance or operating leases based on the principle of whether or not the lease is effectively a financed purchase by the lessee. This classification will determine whether lease expense is recognized based on an effective interest method or on a straight line basis over the term of the lease, respectively. A lessee is also required to record a right-of-use asset and a lease liability for all leases with a term of greater than 12 months regardless of their classification. Leases with a term of 12 months or less will be accounted for similar to existing guidance for operating leases today. The new standard requires lessors to account for leases using an approach that is substantially equivalent to existing guidance for sales-type leases, direct financing leases and operating leases. In April 2020, the FASB deferred the effective date of Topic 842 for fiscal years beginning after December 15, 2021. The Foundation is in the process of evaluating the impact of this new guidance on its consolidated financial statements.

**Revenue recognition:** Effective January 1, 2020, the Foundation adopted ASU 2014-09, *Revenue from Contracts with Customers (Topic 606)*, using the modified retrospective method of transition. This ASU replaced existing revenue recognition guidance, including certain industry-specific guidance, and requires revenue to be recognized consistent with the consideration the Foundation expects to be entitled to for services provided. The adoption of this ASU did not have a material impact on the Foundation's consolidated financial statements.

**Subsequent events:** The Foundation evaluated subsequent events through July 9, 2021, the date the consolidated financial statements were available to be issued.

#### Note 2. Liquidity and Availability

The Foundation regularly monitors liquidity required to meet its annual operating needs and other contractual commitments, while also striving to maximize the return on investment of its funds not required for annual operations. As of December 31, 2020, the following financial assets are available to meet annual operating needs of the 2021 calendar year:

Cash and cash equivalents	\$ 16,518,020
Contributions receivable	1,803,306
	\$ 18,321,326

As of December 31, 2019, the following financial assets are available to meet annual operating needs of the 2020 calendar year:

Cash and cash equivalents Contributions receivable	\$ 9,673,055 1,891,675
Endowment spending-rate appropriations	-
	\$ 11,564,730

The Foundation has various sources of liquidity at its disposal, including cash and cash equivalents and contributions receivable. Based on historical experience, only the portion of contributions receivable due within one year are considered available for use in meeting annual operating needs (liquid). The Foundation has established a cash reserve policy, the objectives of which, in order of priority, are the following:

- Safety and preservation of principal by investing in a high quality, diversified portfolio of securities.
- Liquidity of investments that is sufficient to meet the Foundation's projected cash flow requirements.

#### Note 3. Property and Equipment

Property and equipment consist of the following at December 31, 2020 and 2019:

	2020	2019
Buildings and improvements	\$ 5,311,794	\$ 5,308,201
Furniture and equipment Vehicles	 77,363 48,500	77,363 48,500
Less accumulated depreciation	5,437,657 1,350,463	5,434,064 1,196,354
	\$ 4,087,194	\$ 4,237,710

The building in which the Foundation operates is located on land leased from the United States government. The lease comes up for renewal every five years and the Foundation expects to continue to lease the land through the estimated useful life of the building. Payments under the lease are nominal and the land is located on the Joint Expeditionary Base-Little Creek in Virginia Beach, Virginia. Depreciation expense associated with property and equipment was \$154,109 for the years ended December 31, 2020 and 2019.

#### Note 4. Contributions Receivable

Unconditional promises to give are included in the consolidated financial statements as contributions receivable and public support in the appropriate net asset category. Contributions expected to be received in periods greater than one year are recorded at the discounted present value of the future cash flow. Contributions receivable at December 31, 2020 and 2019, are expected to be collected within one year. Therefore, management determined that a discount for time-value of money was not necessary. Management has also determined that an allowance for doubtful collections is not necessary as of December 31, 2020 and 2019.

## Note 5. In-Kind Contributions Receivable and Unconditional Promise to Give – Real Estate Lease

During the year ended December 31, 2018, the Foundation received an in-kind contribution for office space and common area maintenance in San Diego, California. The donation was donor restricted for transition assistance programs and included the following:

Lease term of 60 months with a contribution of free rent for the 60-month term.

Common area maintenance is free for a period of two years. The Foundation will commence payment for its share of common area maintenance beginning on the 25th month of the lease term.

- The Foundation recognized the fair value of the contribution based on a comparative market analysis.
- The contribution receivable recognized is net of a discount for the time value of money. The discount
  rate is computed using the risk-free rate on the date the contribution was received. The discount is
  accreted through income over the lease term.

The contribution receivable is subsequently reduced by rent and maintenance expense, which is recognized on a straight-line basis over the lease term based on the contribution date fair value of the contribution.

#### **Notes to Consolidated Financial Statements**

## Note 5. In-Kind Contributions Receivable and Unconditional Promise to Give – Real Estate Lease (Continued)

The table below summarizes the contribution date fair value and activity during the years ended December 31, 2020 and 2019:

Contribution date fair value	\$ 2,142,602
Discount for the time value of money (2.56%)	(132,731)
Accretion of discount	22,219
Rent and maintenance expense	(361,600)
Balance at December 31, 2018	1,670,490
Accretion of discount	26,660
Rent and maintenance expense	(433,920)
Balance at December 31, 2019	1,263,230
Accretion of discount	26,660
Rent and maintenance expense	(433,920)
Balance at December 31, 2020	\$ 855,970

Concurrent with the contribution of the lease, the Foundation provided an unconditional promise to give the donated office space and common area maintenance to a third-party that provided transition assistance programs. The valuation and underlying terms of the unconditional promise to give are identical to the contribution and included the following:

- The Foundation has recognized an expense on the contribution date and related unconditional promise to give liability based on the 60-month lease term and contribution date fair value outlined in the table above.
- The unconditional promise to give liability is recorded net of a discount for the time value of money.
   The discount rate is computed using the risk-free rate on the date the contribution was made. The discount is accreted through expense over the lease term.
- The unconditional promise to give liability is subsequently reduced by recognition of other income, which is recognized on a straight-line basis over the lease term.

The table below summarizes the contribution date fair value and activity during the years ended December 31, 2020 and 2019:

Contribution date fair value	\$ 2,142,602
Discount for time value of money (2.56%)	(132,731)
Accretion of discount	22,219
Other income	 (361,600)
Balance at December 31, 2018	 1,670,490
Accretion of discount	26,660
Other income	(433,920)
Balance at December 31, 2019	 1,263,230
Accretion of discount	26,660
Other income	 (433,920)
Balance at December 31, 2020	\$ 855,970

#### **Notes to Consolidated Financial Statements**

#### Note 6. Investments

The cost and the fair value of investments at December 31, are as follows:

	2020		2019	
	Cost	Fair Value	Cost	Fair Value
Alternative investment funds	\$ 70,113,430	\$ 90,633,750	\$ 70,139,891	\$ 77,684,742
	\$ 70,113,430	\$ 90,633,750	\$ 70,139,891	\$ 77,684,742

Investment income is recorded net of investment advisory and custodial fees. These investment advisory and custodial fees totaled \$294,397 and \$265,815 for the years ended December 31, 2020 and 2019, respectively. Effective April 1, 2018, the Foundation changed investment advisors and is now invested in a professionally managed fund structured as a limited partnership that allows for a well-diversified investment portfolio with the goal of generating attractive risk adjusted returns over a long-term horizon. Although the investments are defined as "alternative investment funds" due to the limited partnership structure, the underlying assets are diversified across multiple asset classes and types, including money market funds, domestic and global marketable equities, debt instruments, mutual funds and exchange traded funds in accordance with the Navy SEAL Foundation's Investment Policy Statement.

Components of the net realized and unrealized gain (loss) on investments for the years ended December 31, 2020 and 2019, consist of the following:

	2020	2019
Net unrealized gain	\$ 12,975,469	\$ 11,565,584
Net realized (loss) gain	(106)	4,100
	\$ 12,975,363	\$ 11,569,684

#### Note 7. Fair Value Measurements

Guidance provided by the FASB defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Foundation utilizes valuation techniques to maximize the use of observable inputs and minimize the use of unobservable inputs. Inputs are broadly defined as assumptions market participants would use in pricing an asset or liability. Assets and liabilities recorded at fair value are categorized within the fair value hierarchy based upon the level of judgment associated with the inputs used to measure their value. The fair value hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

- **Level 1:** Valuations based on unadjusted quoted prices in active markets for identical assets or liabilities that the Foundation has the ability to access.
- **Level 2:** Valuation based on quoted prices in markets that are not active or for which all significant inputs are observable, either directly or indirectly.
- **Level 3:** Valuations based on inputs that are unobservable and significant to the overall fair value measurement.

#### **Notes to Consolidated Financial Statements**

#### Note 7. Fair Value Measurements (Continued)

In certain cases, the inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, an investment's level within the fair value hierarchy is based on the lowest level of input that is significant to the fair value measurement. The Foundation's assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment, and considers factors specific to the investment.

The inputs or methodology used for valuing financial instruments are not necessarily an indication of the risks associated with investing in those instruments.

In accordance with FASB ASC 820-10, as amended by ASU 2015-07, Fair Value Measurements (Topic 820): Disclosures for Investments in Certain Entities that Calculate Net Assets Value per Share, certain investments that are measured at net asset value per share (or its equivalent) as a practical expedient have not been classified in the fair value hierarchy.

As of December 31, 2020 and 2019, included in cash and cash equivalents are money market funds valued at \$10,289,310 and \$7,222,234, respectively, which are considered a Level 1 investment. The total fair value of investments as of December 31, 2020 and 2019, is \$90,663,750 and \$77,684,742, respectively, and invested in one alternative investment fund, which is measured using the net asset value. Refer to Note 6 for further discussion surrounding the alternative investment.

The following information summarizes the nature and risk of the alternative investment:

- The investment objective is to maximize risk-adjusted return over the long-term horizon and the fund may invest in a wide array of investments and strategies.
- Capital contributions may be accepted quarterly and in amounts to be determined at the discretion of the fund manager.
- Withdrawals may be made as of the last day of each calendar quarter, with a redemption notice period of 10 days.
- The fund invests directly in approximately 5% exchange traded funds and 95% in a combination of hedge funds as of December 31, 2020 and 2019, private equity funds or other similar investment vehicles that, in-turn, invest in a number of financial instruments, such as money market funds, domestic and global marketable equities, debt instruments, mutual funds and exchange traded funds.
- The fund had unfunded commitments through its investments of \$12,876,026 and \$7,804,514 as of December 31, 2020 and 2019. Capital calls will be funded with available cash or by liquidating other investments, as needed.
- The fund is a limited partnership and located in the United States.

#### Note 8. Net Assets with Donor Restrictions

Net assets with donor restrictions at December 31, 2020 and 2019, are available for the following purposes, and net assets during the years ended December 31, 2020 and 2019, were released from restriction by incurring expenses satisfying the restricted purpose as follows:

	Balance		Net Assets	Balance
	December 31,	Increases	Released From	December 31,
	2019	(Decreases)	Restriction	2020
Purpose restricted:				
Endowment	\$ 4,396,893	\$ 393,225	\$ -	\$ 4,790,118

**Interpretation of relevant law:** The Board of Directors of the Foundation has interpreted the Virginia enacted version of UPMIFA as requiring the preservation of the fair value of the original gift as of the gift date of the donor-restricted endowment funds, absent explicit donor stipulations to the contrary. As a result of this interpretation, the Foundation classifies as net assets with donor restrictions: (a) the original value of gifts donated to the permanent endowment, (b) the original value of subsequent gifts to the permanent endowment, and (c) accumulations to the permanent endowment made in accordance with the direction of the applicable donor gift instrument at the time the accumulation is added to the fund.

In accordance with UPMIFA, the Foundation considers the following factors in making a determination to appropriate or accumulate donor-restricted endowment funds:

- a. The duration and preservation of the fund
- b. The purposes of the organization and the donor-restricted endowment fund
- c. General economic conditions
- d. The possible effects of inflation and deflation
- e. The expected total return from income and the appreciation of investments
- f. Other resources of the organization
- g. The investment policies of the organization

#### Note 8. Net Assets with Donor Restrictions (Continued)

**Return objective and risk parameters:** The primary investment objectives are to preserve and protect assets by earning a total return for each category of assets and long-term growth which reflects returns that exceed blended benchmarks established for the portfolio. A secondary objective is to experience market appreciation sufficient to enable maximum annual distributions to help fund the Foundation's ongoing operations and programs. The Foundation's philosophy regarding assets combines both the preservation of principal and moderate risk-taking. A moderate level of risk is warranted and encouraged to enable the opportunity to achieve satisfactory results consistent with the objectives and the fiduciary character of the funds over a full market cycle.

The Foundation adheres to the capital market theory which maintains that, over the very long term, the risk of owning equities should be rewarded with a somewhat greater return than available from fixed-income investments. Market timing is not an objective; however, sensitivity to market fluctuations is considered when making investment decisions.

The endowment activity for the years ended December 31, 2020 and 2019, is shown in the following table:

	Without Donor	With Donor	
Description	Restriction	Restriction	Total
Endowment net assets, December 31, 2018	\$ 14,559,254	\$ 3,722,582	\$ 18,281,836
Investment return:			
Investment income, net	71,638	18,317	89,955
Realized and unrealized gains	2,565,636	655,994	3,221,630
Total investment return	2,637,274	674,311	3,311,585
Expenditure of funds	(25,000)	-	(25,000)
Board designated transfers	43,328,472	-	43,328,472
Endowment net assets, December 31, 2019	60,500,000	4,396,893	64,896,893
Investment return:			_
Investment income, net	237	17	254
Realized and unrealized gains	5,410,431	393,208	5,803,639
Total investment return	5,410,668	393,225	5,803,893
Board designated transfers	27,339,332	-	27,339,332
Endowment net assets, December 31, 2020	\$ 93,250,000	\$ 4,790,118	\$ 98,040,118

Net assets without donor restrictions consist only of board-designated endowment funds.
